

Life for Science

Usmanov Nail Kayumovich, who has been working as a deputy dean for many years at the Hydromelioration faculty of our institute, welcomes 72 years of age on April 25. Nail Kayumovich is not only a scientist, a generous, honest teacher. On behalf of the rector of the Institute, the Dean of the Faculty congratulated the dean and the team's souvenirs.

The country's dignity can not be inherited. He is the only one who can work honestly, selflessly, and only for a lifetime. As Nail Akas is one of those people, you are proud of your entire team, friends and relatives. The team of the Tashkent Institute of Irrigation and Mechanization of Mechanization of Agriculture, the faculty of Hydromelioration, wish Usmanov Nail Kayumovich good fortune and great success in his future activities, which lead to a long life, health and prosperity of our country.

The press secretary of the Institute, Rakhimboy Jumaniyazov
