

The future is in the hands of youth

On April 23, teachers of the Department of "Land use" of Land Management Faculty visited the school No.274 in Yunusabad district of Tashkent. **In the framework of fourth initiative of "5 important initiatives to raise the morale of young people and meaningful organization of their leisure time" raising the morale of young people, the organization of systematic work to promote reading among youth, our teachers organized a reading circle on the basis of cooperation with schools and higher education institutions.**

This cooperation has been mutually beneficial and interesting for both sides.
