

## Visit to the Tashkent "Botanical Garden" named after Academic F.N Rusanov at the Institute of Botany of the Academy of Sciences of the Republic of Uzbekistan

Under the leadership of G.T.Akhmedjanova the students of the 106 group of "Water supply engineering systems" specialty of Hydromelioration Faculty visited the Tashkent "Botanical Garden". The Botanical Garden is a scientific center for the study and development of the introduction of plants throughout the country (cultivation, acclimatization and use of new plants that have not been grown before). Today, there are more than 2,000 plant collections, and these plants are imported from Asian and European countries, the Caucasus, the Far East, North America, China and the Mediterranean countries. During the visit, students saw the trees and plants in the Botanical Garden, received the relevant information and enjoyed the fresh air.
