

## The traditional GI 2021 international geoinformatics conference has started

The conference 'Supporting Sustainable Development through Geographical Information Systems and Technology' is dedicated to one of the most pressing issues of our time. The three-day conference will run from 27 to 29 January. It will continue its work online and offline. GI 2021 is organised by the Tashkent Institute of Irrigation and Agricultural Mechanisation Engineers (TIAME) in the frame of Erasmus+DSinGIS project in cooperation with Obuda University (OU), Hungary. The conference was opened by Prof. Uktam Paradaevich Umurzakov, Chairman of the Republican Council for Higher Education and Rector of TIAME.
