

## A visit of a representative of the Belarusian State Agrarian Technical University to the Institute as part of the cooperation

Nikolai Stepanovich Yakovchik, Director of the Institute of Advanced Training and Retraining of the Belarusian State Agrarian Technical University, visited the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers within the framework of the cooperation agreement. A meeting was held between N.S Yakovchik and the leadership of the institute. Then N.S Yakovchik got acquainted with the educational process, the material and technical base, and students of the Faculty of Agricultural Mechanization and the Department of "Agricultural Machinery".

The department of "Agricultural Machinery" organized a seminar for faculty and students. At the seminar, N.S Yakovchik informed the audience about the work being done at the Belarusian State University of Agrarian Technology and the Institute of Advanced Training and Retraining. They exchanged views on further strengthening ties with TIIAME professors and discussed issues of further practical cooperation.

K.D Astanakulov, Head of the Department of "Agricultural Machinery"
