

Visit to Exhibition

Innovative inventions are the result of human thinking and imagination. So thinking only leads to talent and progress. Similar visits to exhibitions are also important.

On April 24-26, 2019 at the 2nd International Manufacturing Business Forum "EXPO-RUSSIA UZBEKISTAN 2019" was visited by the students of group 107 of faculty of HM and the group supervisor S. Dustnazarova .

At the exhibition, students were introduced to more than 100 innovations. The exhibition has made a great impression on the students.

R.Jumaniyozov, the press secretary of the institute
