

Technological practical training at "UzCLAASAgro"

On April 26, students of "Technical Service of Agriculture and Water Management" department of "Agricultural Mechanization" faculty began a technological practical training at the "Uz CLAAS Agro" enterprise. Uz CLAAS Agro, a joint venture with foreign investment, was established to produce modern high-tech products in the form of a limited liability company, whose functions include the sale of popular agricultural machinery under the "CLAAS" brand - which specialized in developing tractors, grain and fodder combines, balling equipment specialized and other mobile and trailed agricultural machinery. In particular, "ARION 630C" tractor, which can compete with the best tractors in the world in terms of economy, efficiency and quality, can be considered as the most popular product of the company.
