

Graduates of secondary school No. 55 under the Department of Public Education of Ortachirchik district visited our institute

On April 24, 2021, the director of School No. 55 and 25 graduates of this school visited TIAME. They were greeted at the main entrance of the institute by the dean of the HTC faculty, prof. B.B Hasanov, professors and teachers of the department "Theoretical and structural mechanics".

After that, there was organized a meeting in the Conference Hall, located in B block of the institute, in order to acquaint the graduates with the institute. Vice-Rector for Research and Innovation T.Z Sultanov, Director of the Institute of Mechanics and Seismic Strength of Structures named after M.T Urozbaev of the Academy of Sciences of the Republic of Uzbekistan, prof. K.S.Sultanov, Dean of GTQ faculty prof. B.B Hasanov, First Deputy Head of the Scientific and Educational Complex of the First President of the Republic of Uzbekistan Islam Karimov and others attended at the meeting. A.Ishmatov, professors and teachers of "Theoretical and structural mechanics" department and 1st year students of "Mechanics and Mathematical Modeling" faculty also participated at the meeting.

Firstly, docent of the department. Sh.Khudoynazarov introduced the guests to the participants of the event and gave the floor to Prof. B.B. Hasanov. After that was shown a short video about the activities of the institute. Vice-Rector for Research and Innovation of the Institute prof. T.Z Sultanov acquainted the graduates with the structure of the institute, faculties, directions, trained specialists and their areas of activity.

He also spoke about the conditions created for students at the institute, in particular, student dormitory, conditions and opportunities for effective and meaningful leisure of students, sports complex, the Palace of Culture of the institute, various clubs operating here.

Docent K.Khusanov spoke about the subject area of engineering, "Theoretical Mechanics" and its role in the training of engineers. Moreover, active first-year students of "Mechanics and Mathematical Modeling" shared their views on high school education, how this institute differs from other institutions and what knowledge they have accepted since they started the study. At the end of the event "Theoretical and Structural Mechanics" department presented their souvenirs to the guests.

At the next stage of the visit, the graduates went to the Department of Theoretical and Structural Mechanics. There, assistant teachers of the department S.Khamidov and K.Turajonov gave master classes in mathematics and physics to school graduates. After that, the guests were introduced to the territory of the institute, accompanied by the dean of the faculty and members of the department. They visited educational buildings, a youth park named after the hero and people's poet of Uzbekistan Abdulla Aripov, a sports complex, training laboratories, lecture halls. Finally, the graduates visited the Museum of Hero of Uzbekistan and People's Poet Abdulla Aripov, which was organized in the building of the Information Center of the Institute. At the end of the visit, the guests photographed in front of the administration building.
