

A representative of the Belarusian National Technical University visited the TIAME

Andrey Sviatoslavovich Ponasenko, Deputy Director of the Institute for Upgrading and Retraining of Teaching Staff at the Belarusian National Technical University, came to our Institute to establish cooperation. The meeting was attended by Vice-Rector for International Cooperation A.Salokhiddinov, Dean of the Faculty of Mechanization of Hydroamelioration B.Norov, Head of the Department I.Khudoev, Head of Research, Innovation and Training of Scientific and Pedagogical Staff B.Matyakubov and Head of International Cooperation Sh.Rakhmonov. At the meeting the detailed information about the history, current state and scientific directions of the Belarusian National Technical University was presented. Then the sides exchanged opinions and suggestions about the conditions of professional development and internships at this university. The meeting was held in a dialogue format. More than 30 participants received answers to their questions.

For reference: The Belarusian National Technical University is one of the #801 - 1,000 best universities in the world. It was founded in 1920. More than 3,000 teachers and 16,000 students work in 16 faculties of the university.
