

Powerful and innovative inventions

✘ The invention of today's inventions reflects the innovative state and modernity of our time and opens the way for cooperation, which is the criterion of progress. Innovative developments and projects in every corner push young people to new openings. 3rd year student of the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers, "Hydroelementation" faculty, "Water management and land reclamation" direction, under the guidance of the group coach of group 306 K. U. Musayev took part in "InnoWeek.uz" the exhibition on Week of Innovation in the National Exhibition Complex "Uzexpoentr". They were delighted to share their impressions with other students. This kind of innovative environment leads students to innovation and new ideas.

The press secretary of the Institute, Rakhimboy Jumaniyazov
