

Visit to the "Remembrance Square"

✘ The 3rd course group 18 Students visited the Remembrance Square together with senior teacher of "Theoretical and Constructional Mechanics" department E.S.Toshmatov. It helped th Students of Hydromelioration faculty (Water management and melioration) direction to practically consolidate the theoretical knowledge acquired by the subject "Construction mechanics".

They learned a lot about the construction of the "Farmlike Bridge". The students had practical experiences. Obviously, this is a sign of the continuing well-being and enlightenment.

Head of the Press Service of the Institute Rakhimboy Djumaniyazov
