

## Books from the United States were brought to the Information Resource Center

The winners of the competition by COCHRAN FELLOWSHIP PROGRAM 2019 project participated in international seminar training in Colorado, Kansas, Oklahoma, and Mississippi in USA from October 26th till November 11th. Among these successful seven winners and researchers from Uzbekistan were the 1st course Ph.D doctoral students of TIAME J.Babajanov (Economics department) and the 1st course Ph.D doctoral student of Land use department I.Abdurakhmanov.

This workshop explores innovative US practices in effective livestock management, sustainable pasture management, environmental monitoring and monitoring of flora, soil and water bodies.

It should be noted that in accordance with the initiative by the rector of our institute, the doctoral student of the specialty "11.00.07 - Geoinformatics" I.Abdurakhmanov brought the following books:

The Nature and Properties of Soils

Hartmann's Plant Science

Crop Production Principles

Soil and Plant Water Relations Principles

Plants, Genes, and Crop Biotechnology

Let there be water

Novel Measurement and Assessment Tools for Monitoring and Management of Land and Water Resources in Agricultural Landscapes of Central Asia

Interested people can contact the information-resource center of the Institute for the use of these books.
