

Online seminar on the topic "Modern information system for the organization, management and monitoring of the educational process."

In the Decree of the President of the Republic of Uzbekistan dated October 8, 2019 No. PF-5847 "On Approval of the Concept of Development of the Higher Education System of the Republic of Uzbekistan until 2030", tasks such as improving the quality of higher education, raising to a qualitatively new level the process of training independently-minded highly qualified personnel with modern knowledge and high spiritual and moral qualities, modernization of higher education, the introduction of digital technologies and modern methods in the educational process.

An online seminar on the topic "Modern information system for organizing, managing and monitoring the educational process" was held today at the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers. At the seminar, the head of the Department of Information and Communication Technologies in Management of the Academy of Public Administration under the President of the Republic of Uzbekistan, Associate Professor Kurbon Sodikovich Rakhmanov spoke about the electronic software used in higher education, as well as the electronic information system introduced at the Academy of Public Administration.

The purpose of the seminar is to create an electronic platform for organizing and managing the educational process in the administration, dean's office and departments, transferring the educational process to an electronic system. This information system includes functions such as automating the organization of the educational process at the department, in the dean's office and educational departments, monitoring the training and attendance of students, as well as payment of student contracts, electronic data of individual teacher plans, generating reports on the workload and its implementation. ... Deans, heads of departments and teaching staff received answers to all their questions.
