

Finland experts conducted training on modern pedagogical technologies

The next training of "BioEcUz" project took place. Professors of JAMK University of Finland conducted training for professors and teachers of TIIAME, Tashkent State Agrarian University and Bukhara State University participants on modern pedagogical technologies. The training provided a presentation on pedagogical technologies aimed at graduate students and developing active learning skills.

For information: The project "New Master's degree programs in sustainable bioeconomics in Uzbekistan" (BioEcUz) funded by the Erasmus + program is the development and implementation of a master's program in bioeconomics in our country. More information is available at bioecuz.tdau.uz.
