

Analytical presentations

✘ The first issue of 24 articles on water resource management, ecology and environmental protection issues was presented. Presentations included the issues of atmospheric protection, Aral Sea, ecology, drinking water and water management.

Particularly it was interesting for all the followings such as D. Rustam to the English language ecosystem services, Z. Tillayeva's dedication to water and energy efficiency in Kashkadarya basin and A.Haydarov's protection of the city's atmosphere. The first day of the conference was held with active participation of students and young teachers.

The press secretary of the Institute, Rakhimboy Jumaniyazov
