

Cleanliness is an indicator of high culture

As part of the spring clean-up, territory cleaning measures for the improvement and sanitary have begun. Cleanliness gives a person aesthetic pleasure. Ecology Day at our institute is significant for achieving these goals.

On Saturday, March 27, 2021, teachers, together with students of the Department of Automation and Control of Technological Processes and Production of the Faculty of Energy Supply of Agriculture and Water Resources, carried out cleaning and landscaping works in the territory of the institute.
