

## Sacrifice is a good job

The two concepts are the criterion for the existence of human beings. One is food, the other is word. Empty bag does not stand. It is important for both of them to keep the person high standing and value. Therefore, in the hadith-i sharif, it is said that the power of the body is food, and the power of the soul is with the Word. It is true that generosity and goodness are the criterion of old and eternal values. People in charge of building schools and madrasahs, publishing houses, printing houses, bridges and reservoirs for the public have never been few in the history of the country. Therefore, a generous person has always been dear to the country. That's the essence of their lives. It is clear that this is a great and unforgettable truth. At the same time, demand and require that the comprehensive development of the links between the higher education system and the manufacturing sector, and in scientific terms, their integration is an important issue. Today, October 27, 2018 - in Tashkent Institute of Irrigation and Agricultural Mechanization Engineers students cuisine was organized a dinner table for students studying under the sponsorship of the Karshi highway canals management department. During the 2014-2018 years by this organization to the laboratory of "Hydromashinalar" of the department "use of energy and water pumping stations" for students to use in experimental classes:
