

Seminar training

On May 1, 2019 at the initiative of the Department of "Electric Power Supply and Renewable Energy Sources" of the Institute, on the 7th lecture hall, the 2nd year students of the QSXEА faculty and masters of the department were invited by the researcher and professor of the Cracow University of Technology, Ph.D. Tursunov Obidjon Bobokulovich for a seminar-training on "Potential for Development of ALTERNATIVE ENERGY in Uzbekistan". The aim of the seminar-training is to provide students with detailed information on renewable energy sources, prof. O.B. To familiarize students with the research work carried out by Tursunov in this field. During the workshop, the students received a complete answer to their questions.
