## The student of our institute is a champion

There is a great interest in sports in our country. In particular, the Institute has developed many measures in this area. We can see the actual implementation of this. Abbas Mukhtorov, a student of the Faculty "Agricultural Mechanization" in the weight category of 50 kg, took the first place among the professional wrestlers on the sport, dedicated to the 28th anniversary of the Armed Forces of the Republic of Uzbekistan on January 25-26, 2020.
