

## According to the Presidential Address

The reports of the President of the Republic of Uzbekistan Shavkat Mirziyoyev to the Oliy Majlis on the most significant priorities for 2020 now to be study. On 28 January this year in the 1-student hostel of the Faculty of Land Management, the Deputy Dean for Youth Affairs Kh. Eshova, Senior Lecturer of the Department of Land Use S. Sharipov, Head of the Department "Geodesy and Geoinformatics" R. Omatov propagandised the students to the President's appeal.

They announced the students the year 2020 as the "Year of Science and Development of the Digital Economy," and the message does, "Where there is no science, there is no reasonable action to go, science is the air we need, the greatest wealth is intelligence, it is ignorance" we all desire to understand. The modern vision, new ideas, and original plans have noted that it should explain the future of the state. Without ideas, acts, and projects, it is problematic to get promising programs. In specific, there are 17 important aspects touched on in the Address, 16 laws envisaged for adoption and revision, and codes, concepts, programs and strategies - all of which supply to improve the Homeland and the welfare of our people. This process demands a huge responsibility, initiative, and involvement of our young nations. The roundtable was very interesting and full of questions and answers.
