

New Peaks of Cooperation

✘ Today, the most important requirement of the time is the remote control and automation of the existing water infrastructure to improve water management efficiency. On 30/01/2020, the doctors of the Sharda University of India Puja and Ahmad Ismail visited the Department of Hydrology and Hydrogeology of our Institute. The main purpose of the visit was to collaborate with the faculty of the department on automation of experimental methods in some reservoirs of Uzbekistan. The first step of cooperation was successful.

Information of S. Kadirov, Assistant of the Department of Hydrology and Hydrogeology
