

Information hour about the life and work of Ahmad al-Fergani, the first major figure of the Renaissance

The world heritage of Ahmad al-Fergani is one of the rare treasures of world culture and enlightenment which reflects our national potential, scale, and power of national thinking. Ahmad al-Fergani was one of the brightest figures of Islamic culture, one of the founders of the fundamental science of his time.

October 29 became a memorable day for group 101 of the Faculty of Organization and Management of Water Resources. Each student received Student IDs. The guest of the information hour was the vice-rector for youth, spirituality, and education of the institute Choriev Ruzimurat Kungratovich. He told the students about the reforms, about the opportunities created for young people.

Then a training seminar was held with the participation of an experienced psychologist, winner of the international competition "The Best Teacher", winner of the "Shukhrat" medal, member of the Tashkent City Club of Future Leaders Nuriddin Ubaydullaev. Dean of the faculty Khakimov Rashid thanked the guest and presented him with a memorable gift.
