

Visit to "Tashkent Polytechnic" museum

The Deputy Dean for Youth Affairs of "Energy Supply of Agriculture and Water Resources" faculty, the curator and the students of group 105 of the Department of Information Systems and Technologies have visited "Tashkent Polytechnic" museum. They got acquainted with the history of the origin of the first manufactured cars and the machines developed present days. They also witnessed a show. Without exaggeration we can say that this museum tour presented a good state of mood to our first-year students.
