

## Innovation Forum "Inno Week-2019"

From 29 - 31 October, 2019, at the National Exhibition Complex UzexpoCenter, the Ministry of Innovative Development of the Republic of Uzbekistan holds a Week of Innovative Ideas - InnoWeek.uz. The event has become a unique platform for local and foreign research and innovation centers, investment funds, technology agencies, technology parks and business incubators.

At this exhibition, teachers and gifted students of the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers presented their latest developments:

"Rotary disk crusher - RDD-100". Authors: Assistant professor D. A. Alidjanov, senior teacher Sh.Kh. Abdurakhmanov.

"Introduction of high-quality fertilizers and biogas from organic waste in rural areas" Authors: Doctor of Technical Sciences, Professor Sh. Imamov, Scientific Researchers: K. Usmonov, M. Sultonov, Z. Mamadalieva, N. Imomova, T.Kayumov.

"The device is a hydroelectrometer." Authors: Normurodov Zh., Toshmurodov Y.

"Energy efficient micro hydroelectric power station for low pressure watercourses". Author: PhD D.B.Kadirov

"Device for processing fruits and grapes before squeezing juice." Authors: A.Radjabov, N. Eshpulatov.

"A device for measuring humidity and temperature." Authors: D. Karimova, Y.Toshmuradov.

"Energy and resource saving machine for planting potatoes." Authors: H.Makhmudov, R.Duskulov .

"Device for measuring the water level in wells." Authors: Sh. Hamraeva, Y.Toshmurodov .

During the presentation, our participants provided detailed information to interested guests, answered all questions and took the first steps to further cooperation.

The main goal of the exhibition is to demonstrate new domestic and foreign technologies, increase the living standards of the population and attract new investment opportunities that are beneficial to the country's economy through the exchange of the latest technologies.

Exhibitors will be able to participate in negotiations and conclude mutually beneficial transactions. The exhibition will feature the most innovative products, innovative projects, prototypes or models for business in all areas, both domestic and foreign.

The exhibition runs until October 30-31. We invite all interested!

Press secretary of the institute Rakhimboy Djumaniyazov
