

Treatment of souls

The child's soul is delicate. We may face people who were born with inborn defects , or those who later became disabled due to an accident. Being compassionate is one of the most important aspects of humanity.

The charity event devoted to the International Day of Persons with disabilities was organized by the initiative of M.Lufullayev , the youth leader of the faculty of Energy Supply of Agriculture and Water Resources, on December 3,. That was a great excitement for the pupils of children boarding school № 105 in the Mirzo Ulugbek district. Although these children are mentally and physically weak, their dreams are pure.
