

Pilgrimage

Actions with the team are always good. It is noteworthy that in the appeals of the President to the Oliy Majlis, it is noteworthy that the great scholar Imam al-Bukhari would act according to his intention. From the beginning of the year, having good intentions, visiting the magnificent places of worship, not only give the heart a feeling of gratitude and contentment, but also enlighten them.

For the same purpose, on January 5, 2019, by the initiative of the vice-rector for youth affairs Q. Shovazov, group 1 activists of the Institute visited Zangiota. There is no doubt that the visit has made a great impression on active women.
