

Pakhtaabad Agricultural College

About Pakhtaabad Technical School

According to the Resolution of the Cabinet of Ministers № -296, the name Pakhtaabad vocational lyceum had been given since 1995. Due to the Resolution of the Cabinet of Ministers №- 406 dated September 23, 1998, the Lyceum had been transformed into Pakhtaabad Agricultural Professional College since September 2, 2000. Accordingly the Presidential Decree of the Republic of Uzbekistan, dated September 6, 2019 № PD-5812 "On additional measures to further improvement the professional education system.", Agricultural Professional College of the Pakhtaabad district, Andijan region was transformed into Pakhtaabad Agricultural College under Tashkent Institute of Irrigation and Agricultural Mechanization Engineers.

At present time the capacity of Pakhtaabad Agricultural College of Tashkent Institute of Irrigation and Agricultural Mechanization Engineers is 720 places, consists of 4-storied 1-2 educational buildings, parking for practicing and administrative departments as well. The total area of the land plot is 7.8 hectares. Besides that, there is a residential building with 8-apartments and an educational experimental farm with an area of 1 hectare (fenced). As of September 2020, passenger cars are in need of repairs and most trucks are unusable. The total area of the land plot is 7.8 hectares. There is also an 8-apartment residential building, an educational and experimental farm with an area of 1 hectare (fenced).
