

Scientific Olympiad on "Economics of Agricultural Complex"

Today, the second stage of the Republican Olympiads among the students of higher educational institutions was held with high preparation and attention. The same process was held at the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers on May 15-16, 2019 on subject "Economics of Agricultural Complex".

On May 15, the opening ceremony of the Republican Scientific Olympiad was held. At the opening ceremony of the Republican Olympiad, the Dean of the Faculty of Organization and Management of Water Resources Z.Mukimov made a speech and sincerely congratulated the professor-teachers and students of our institute and wished them success. In total, 10 students from higher education institutions across the country successfully passed the first stage and enrolled in the 2nd stage on May 15th. The first day of the Republican Olympiad was held on the basis of written work, test and 2-day (practical training), transparent, fair, and responsive to the questions of answering questions. The third place was awarded to Mamurjon Utamurodov, the fourth-year student of Samarkand Veterinary Medicine Institute, 2nd degree student of Tashkent State Agrarian University, Andijon branch Abdullayev Muslimjon, 1st place student of Group 1 of the Faculty of OMWR of Tashkent Institute of Irrigation and Agricultural Mechanization Engineers Yuldashboyev Bakhtiyor. The winners and participants of the contest and their mentors were awarded the honorary diplomas and memorable gifts of the rector of the institute. We thank all the members of the working group, who have been closely involved in the organization and organizational work, and the management of the institute, the Committee of Trade Union Committee.
