

## Director of the Bukhara branch of TIAME Shavkat Imamov met with first-year students of AM faculty

Attention to the youth in our country is also very important, as care for the younger generation has risen to the level of public policy. The focus on young people, the growing level of support for them, opens the door to many opportunities for boys and girls. Therefore, young people are the future of the country, the creators of tomorrow.

On January 19 in the "Palace of Culture" of the Bukhara branch of TIAME was held a meeting "Leader and youth" with the director of the branch and the youth of the first stage of the Faculty of Agricultural Mechanization. The event was opened by the director of our branch, Professor Imamov Shavkat Jakhonovich, on December 25, 2020 at a meeting of the President of the Republic of Uzbekistan with young people at the "Youth Forum".

During the speech, the director of the branch spoke about the views of the President on the youth, the opportunities created these days, the changes in higher education, the fact that 2021 will be called the Year of Youth Support and Public Health in the country.

 The students shared their thoughts, achievements and future plans. The professors and heads of departments invited to the meeting also recalled their student years, comparing the past and present and telling about the events of their youth.

In particular, the words of the branch director to the young people of the branch, "You are my children, I have the strength to create all the conditions necessary to you," was a special impetus for young people to move forward.

Nomonov Jalol, a student of group 1/1 of the Department of Mechanization of Water Resources and Land Reclamation, said - I am now a first-year student. God willing, I have a big goal. As a continuation of achievements of our previous branch students I would be a scholarship holder of the President of the Republic of Uzbekistan. At the same time, our branch proposed to introduce a scholarship "Branch Director" for young people. The director of the branch supported the proposal and gave instructions to the officials.

After that, Khamroyev Ogabek, a student of the group 1/2 of the Department of Mechanization of Water Resources and Land Reclamation, expressed his gratitude on behalf of all students for organizing such a meeting, as well as online classes at the branch. He thanked the leadership of our branch for the establishment of a military department in the branch.

The purpose of today's event is to get closer to young people, if necessary, to dream with them. Our society needs young people with a unique approach, high potential and innovative thinking. We find such young people in this circle.

During the meeting, which was held in an open dialogue manner, young people freely expressed their views on their achievements, various problems and issues that plague them.
