

Assistance to employment

In order to ensure the employment of the graduates of the institute a large-scale work is underway in our country, in particular in our institute. On January 31, 2011, the consultant of the private enterprise BCT Cluster, academician Bahriddin Zaripov visited our institute. Academician B.Zaripov met with professors and teachers of the faculty "Mechanization of agriculture" and introduced students to the enterprise and held a discussion on youth employment.
