

Memory is the seal of eternity

People, nations, and peoples live with a sense of historical memory. Memories, which represent the past, the teachings of our ancestors, our national heritage, illuminate our lives like the pages of a holy book. Dignity elevates a person, gives him nobility in his activities, aspirations, and goals.

Demonstrating in practice an unwavering example of will and courage, the comprehensive development of our dear Motherland, the continuation of good deeds, the memory of the ancestors who sacrificed their lives for today's peaceful and serene days, respect for the elderly in our ranks - the highest humanity is a criterion and an eternal value inherent in our tolerant and noble people who live in the belief that we need peace and prosperity.

Our people have always honored the heroes who defended our country from invaders and fought for their freedom, independence, and inviolability. On May 9, the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers received information about the condition of A. Artikbaev and E. Musin, residents of Lashkarbegi mahalla. At the initiative of the rector of TIAME, deputy of the Tashkent city council Umurzakov Oktam Pardaevich, on the occasion of the 75th anniversary of the victory, war and labor veterans received gifts from the leadership of the faculty "Irrigation and Drainage" and a group of professors. The war veterans expressed their gratitude for the attention paid by the Institute.

As long as there is memory, the nation is alive,
Pride is alive, pride is alive.
Memory is the power that makes a nation,
Memory is the light that illuminates the morning.

Xotira bor ekan, tirikdir millat,
Tirikdir iftixor, tirikdir g'urur.
Xotira - elni xalq etguvchi qudrat,
Xotira - ertani yoritguvchi nur.

Orifjon Habibullaev is the Deputy Dean for Youth Affairs at the Irrigation and Drainage Faculty
