

## The director of the German company "IRRIPORT" paid an official visit

Parssa Razavi, Director of Irriport, a German manufacturer of water-saving irrigation systems, and Rayhon Kasymova, Representative of the German Economic Representation in Uzbekistan, paid an official visit. The meeting was attended by Vice-Rector for International Cooperation A.Salohiddinov, Head of the Department of Irrigation and Land Reclamation I.Begmatov, Head of the Department of Irrigation and Drainage Systems A.Sherov, Head of the International Department Sh.Rakhmonov. Razavi worked in various irrigation companies in Germany from 2000 to 2011. Then find out that there is a need to install small-scale irrigation systems in the irrigation system. IRRIPORT was founded in 2011. Today, in addition to installing all small-scale irrigation systems in Germany, it also exports its technology to Iran and Pakistan. Uzbekistan, like Iran, has expressed interest in installing irrigation systems in the region because of its climatic similarities.

☒ The institute has agreed to set up a laboratory to demonstrate the company's irrigation systems. Souvenirs were handed out after the meeting.
