

## TIIAME has taken its rightful place among "World Green University Rankings" 2020 - UI GreenMetric

There are a lot of types of world rankings for higher education institutions, Quacquarelli Symonds (QS), Times Higher Education (THE), and Academic Ranking of World Universities (ARWU) are one of the leading rankings. Another internationally recognized ranking is "UI Green Metric", established by Indonesia University in 2010. The main purpose of this ranking is to support and rank the leading universities in the field of waste management, rational use of electricity and drinking water, environmental friendliness. On December 7, 2020, was held an international event to review and award 2020 "UI Green Metric" World University Rankings, an annual ranking published by Indonesia University.

In 2020, around 1,000 of the world's most advanced and green universities participated in the ranking. It is noteworthy that this year's ranking also includes National University of Uzbekistan named after Mirzo Ulugbek and Tashkent Institute of Irrigation and Agricultural Mechanization Engineers. In fact, these universities are among the most environmentally friendly and green universities in Uzbekistan which encourage the rational use of electricity, waste management and environmental protection, and the efficient use of drinking water.
