

Training for next trainers

Within the framework of the joint project of the United Nations Development Program (UNDP) and the Ministry of Water Resources of the Republic of Uzbekistan "Strengthening Technical Capacity" within the framework of the European Union "Sustainable Water Resources Management in Rural Areas of Uzbekistan" Training for Teachers of the Legislation "started for the 4th group of students.

It is worth reminding that the training was held on May 14-17, 2019 for group 3 students.

13 professors, teachers, doctors and researchers of the Institute participated in this training. During the training, the participants gained practical skills to deliver interactive methods, lectures, presentations, and simple and streamlined materials to improve the quality of their lessons.

All the participants were actively participating in the training.

Senior lecturer of the Department of Management A.Durmanov

Pro-rector on scientific work and innovations T. Sultanov
