

## Nawruz - the fruit of good intentions

The real revival of nature is clearly evident in our country when Navruz is walking in the mood. It is closely related to the spirit of the society and the refinement of a human being, not just with the climate that is dependent on the evolution of nature. Everyone who instills the spirit and the food from nature and society will be able to make a bold step in the pursuit of great goals and serve as a benevolent person for the benefit of the people.

One of the scholars has the right to say, "If you lose your money, lose everything, lose something, lose some of your things, but if you lose your trigger, you lose everything." A tactile person fills all the backs, he is capable of doing good and can. Because his intent is to do good deeds.

In his second appeal, the President of the Republic of Uzbekistan Shavkat Mirziyoev noted a khadis from the book "Jome 'us-sahih" by Imam al-Bukhari: "Actions are based on intentions." So good works are in harmony with good intentions. The intention is good. Relaxing, refreshing and steadfast starts with a holiday spirit. Considering this spiritual necessity, tables for Navruz were organized in our institute. It is noteworthy that the celebration of the event with teachers and students, respected guests, and well-known artists of our nation was a great addition.

On March 30, our institute was decorated with holiday decorations. The colorful flowers, the delicacies and the baked goods, the customary clothing of each region, make the eye smash the tongue.

The rector of our institute was satisfied with the creativity of students, the artistic skill, watching the festive table, musical and competitive programs prepared by the students of each faculty. They celebrated the holiday with great enthusiasm.

At 13.00 o'clock on the front yard of the main building of our institute a large monitor was installed, and a concert program with scenic flowers and elegant designs started. The songs of well-known singers gave the audience a lot of joy and enthusiasm.

This festive program in our institute has undoubtedly been a source of spiritual strength for both teachers and students.
