

Decent assessment of the writer's work

"From the introduction to literature, a person is enriched spiritually," the head of state noted. As the President admitted, it is gratifying to know and understand that the heart of people, literature that reflects people's spirituality, is an effective force that can penetrate the hearts of people and inspire them to achieve their goals. The staff of the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers is involved in promoting the work of the People's Poet of Uzbekistan Abdulla Aripov, the hero of Uzbekistan, the author of the text of the national anthem of the Republic of Uzbekistan. Under the leadership of the rector of the institute, Professor Uktam Pardaevich Umurzakov, we were instructed to collect and study new information about the work and activities of the writer, which made it possible to create a work plan and roadmap.

In order to popularize the writer's creativity, the leadership of the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers has developed a roadmap. Creative and spiritual and educational online events dedicated to the life and work of the poet are held. It is planned to open a museum dedicated to the life and work of Abdulla Aripov, organize a series of online webinars about the life and work of the writer, organize student trips to the Kanan district of the Kashkadarya region, where Abdulla Aripov was born and raised, as well as a wide celebration of the 80th anniversary of Abdulla Aripov, in connection with this, the organization of a republican conference, the establishment of close ties with the family of Abdulla Aripov, the creation of a documentary film, the organization of the circle "Followers of Abdulla Aripov", the establishment of a scholarship named after A. Aripov. Our plans for the future are to organize events in cooperation with the School of Art. Abdulla Aripov in Karshi. Activities to popularize the writer's creativity will become a spiritual bridge for meeting the great representatives of our people. An online forum dedicated to Abdulla Aripov was recently organized. It was attended by the wife and daughters of the great poet, the eldest daughter of Mavlyud Aripova, who now lives in the United States of America. The preparation of events under the heading "Tafakkur tomchilari" began, aimed at highlighting and analyzing the writer's work, his multifaceted activities, and socio-philosophical views. A video program for our students "Interview of Burchagi" has been created. It is especially noteworthy that Abdulla Aripov's poems were prepared in audio format, that is, in the form of audio discs. An important step in this direction is the publication of a collection of works by our students, inspired by the poetry of Abdulla Aripov, entitled "Sources of Inspiration" in the form of a separate book with a preface by the rector.

Educator-teacher Dilorom Sagdullaeva visited the poet's house and talked with the poet's wife Aripova Hanifa Mustafayeva. Visited the creative room of Abdulla Aripov. There she saw many author's books, photographs from different periods, and more than 500 unpublished poems. Khanifa Mustafayevna said that if the house-museum of Abdulla Aripov opens, she will transfer everything to the museum. Dilorom Sagdullaeva also visited the restroom and dining room. One room attracted particular attention. Here are the national handmade earrings and rosary made by Khanifa Mustafayevna in her free time. The poet's wife suggested opening the Abdulla Aripov Foundation, which will be aimed at supporting talented youth. Behind every great man there is a great woman, says the famous English proverb. And indeed it is. Often there is a woman next to a successful man who inspires him and provides the rear. If there is a woman next to him who believes in him, then he will certainly succeed.
