

Secrets of Success

Everyone dreams that such concepts as luck, happiness, success, triumph were present in his life. What is the key to this? The only way to achieve this is to communicate with people who have experienced many difficulties in their lives, found their place in life, who can share their life experiences. There is no straight and smooth road in life. Walking, running, swimming, moving is the path to happiness. The primary organization of the youth union, together with Business events group, project manager A. Ashurov, conducted a motivational business training and a master class on the topic "As soon as you succeed, secrets that you expect and want to know will be revealed." The event organized jointly with an entrepreneur, businessperson, trainer, marketer, blogger and world-famous expert Akmalxon Ashurov.

Initiative and striving to keep up with the goal lead to success. Success results from self-improvement, hard work, learning from failure, loyalty to those for whom you work and perseverance. To succeed, you must have a burning desire to achieve it. "How" a second time. First, it must inspire you. If you really want something, you will invent amazing ways to achieve this. Innovation leaders are a special category of people. They do not go on beaten paths. They rush into the unknown and reach the impossible.

At the end of the meeting, Akmalxon Ashurov awarded a letter of thanks. In the coming weeks, such initiatives will continue. By conducting such meetings for youth, we contribute to the development of entrepreneurship and business.
