

Congratulations: Kh.Komilova - winner of the republican contest "Best Innovative Project"

In order to provide comprehensive support for the implementation of innovative ideas, projects and developments of women in the country, to increase the effectiveness of projects implemented by women working in various fields of science and education and the economy, the Ministry of Support of the Mahalla and Family of the Republic of Uzbekistan and the Center for Women of Inventors of Uzbekistan have been organized Republican contest "100 best innovative projects of women of Uzbekistan".

Scientists, teachers, inventors, engineers, designers, programmers, doctors, pharmacists, specialists, businessperson, and craftsmen, also talented students took part in the republican contest "100 Women's Innovative Projects of the Republic of Uzbekistan". The competition organized in 3 stages. Over 4,000 applications have been received. At the final stage of the competition, the expert council of the republican expert council reviewed and listened to documents and innovative projects of more than 300 participants who successfully passed the district and city (regional) stages. The 100 best projects and their authors selected as winners.
