

## The spirit of the holiday

The celebration prefers to be unique to all public and educational institutions. The New Year's greetings are, in a sense, the sum of the last year and the plans for the coming year. The achievement and the shortcomings that have been achieved during the year will increase the self-esteem and the sense of responsibility towards the profession.

The team of our institute gathered on December 29 in the magnificent celebratory canteen to celebrate New Year. Guests of the faculty, professors, workers and educators of the institute, who were in the vicinity of a large table full of various flavors, appeared in their faces. The comments of the President of the Republic of Uzbekistan Shavkat Mirziyoev in the appeal to the Oliy Majlis, in particular, the suggestions on calling 2019 as the Year of Active Investments and Social Development gave us all the spirit and content.

At the beginning of the New Year event, the rector of our institute, Professor Umurzakov Uktam Pardayevich congratulated the guests on the New year's table and congratulated them with the holiday. In particular, by presenting our achievements throughout the year through the presentation program, we are convinced that the next year will be a difficult and responsible year based on the confessions of the President. The rector urged the staff of the institute to work honestly to fulfill all the tasks set by the President of the country. It is crucial to mention that many international conferences were held, the institute collaborated with some prestigious foreign organizations and universities in many spheres, several teachers and professors of the institute were awarded with the honored prizes, a lot of students of the institute achieved great results throughout the year.
