

## Head of the Department of State Cadastre, a leading scientist in the field of land management and cadastre Kasimjon Rakhmonov turns 70 years old

On behalf of the rector of the Institute, together with the chairman of the trade union F.Irisov, the team of the Faculty of Land Management congratulated Kasimjon Rakhmonov on his 70th birthday and the 45th anniversary of his pedagogical and scientific activity at Tashkent Institute of Irrigation and Agricultural Mechanization Engineers.

Teacher Kasimjon Rakhmonov graduated from Tashkent Institute of Irrigation and Agricultural Mechanization Engineers in 1976 with a degree in Land Management and began his career at this institute. Kasimjon Rakhmonov is a leading scientist who makes a worthy contribution to the development of the country's economy through the training of highly qualified specialists in the field of land management and cadastre. Today, his students successfully work in various regions and districts of Uzbekistan, as well as in neighboring republics, fully mobilizing knowledge in their work. Kasimjon Rakhmonov is the author of several scientific and methodological works, including more than 140 scientific articles, 4 monographs, 1 textbook, 8 study guides and 3 patents.

During his career, Rakhmonov visited the United States, Finland, Sweden, Great Britain, Hungary and Russia. We wish Master Kasimjon Rakhmonov endless happiness, good health and every success in his honorable work for the development of our country and our institution. We are confident that the teacher will continue to use his knowledge and experience in training students who will be able to further strengthen the power of our native land.

Information of Sh.Narbaev, Dean of teh faculty of "Land Management":
